

# War Room Prayers FOR THE SICK

## My War Room Prayers:

I pray I never lose hope or grow weary in doing good.

I pray God uses this season of sickness to glorify His name and grow me in ways I never would have had I never became ill.

I pray that God would protect me from grumbling and complaining and use this time of physical and emotional burdens as a time to grow in my own lament to Him.

I pray God would give me wisdom if there is anything in my own free will that's holding me back from healing.

I pray for purpose in this trial of sickness and that God would grant me wisdom on what that looks like for me personally.

I pray God would heal me physically, be it supernaturally or through the wisdom granted to my physicians and myself.

I pray God would heal me emotionally.

I pray God will restore and rewrite the broken story of my life that has resulted from physical illness.
